On page 4948 of the above referenced articles, there are errors present in Equation 11 and Equation 12. The correct equations are provided below.

Equation 11:

$$e_j = Y_j^s(k + p_j) - y_{cj}(k + p_j)$$

Equation 12:

$$e_j = Y_j^s(k + p_j) - \hat{y}_j(k + p_j) - y_j(k) + \hat{y}_j(k)$$

The aforementioned errors and subsequent corrections have no overall effect on the scientific conclusions discussed in the paper.
